SAI360 FastStart

Accelerated Risk Management

Ready-to-use best practice solutions deliver fast, cost-effective IRM implementation

Spend time managing risk, not implementing software

Risk can come from anywhere, when you least expect it. The consequences are real. In today's unpredictable environment, one misstep can go viral, threatening not only your business operations but your most valuable asset: your reputation. To address growing risks and improve organizational resilience, organizations need new solutions – because risks don't wait for you to be ready for them.

Integrated Risk Management (IRM) solutions require quick, efficient implementation and the flexibility to support evolving organizational needs over time to stay productive in today's fast-paced environment.

With SAI Global's SAI360 FastStart, you can deploy your IRM solution in weeks.

How SAI Global helps

SAI Global's SAI360 FastStart delivers pre-configured software capabilities based on industry best practices with out-of-the-box templates, reports and fixed-duration services engagements. These solutions allow risk professionals to see an immediate return on investment and manage risk more efficiently.

FastStart solutions aren't just easier to implement and launch than custom development efforts; they're more budget friendly, too. SAI360 FastStart delivers the core capabilities to immediately uplift your risk and compliance management program, leverage best-practice workflows and easily support additional refinement as your perspective of organizational risk develops.

EACH FASTSTART INCLUDES THE FOLLOWING COMPONENTS TO ENSURE SUCCESS:

- Software Capabilities – Defined in your contract and delivered at go-live
- Settings, Templates and Reports – Delivers value on day one
- Project Team – Implementation team ensures you get going in the time promised
- Optional Modification Packages – Tailor the solution to your business process within defined parameters
- Optional Service Activity – Beyond pre-configured solutions and configuration packages, you can utilize SAI Global consultants for extra training and support at roll out, to create custom reports beyond those included and more

FastStart delivers

- Best Practice Based – Designed around best practices based upon extensive industry experience
- Complete Solution – Reduce workload with built-in settings, templates and reports
- Predictable Go-Live – Know how long it takes from day one
- Clear Deliverables – Understand exactly what's included before purchasing
- Fixed Fee – See costs up front to avoid budget overrun
- Knowledge Transfer – Ensure your team is ready with professional services training
- Configurability – Meet specialized requirements via additional services engagements
- Lower Cost and Faster Delivery – Costs less than a custom-designed system and implemented faster
- Earlier Training – Start end-user training earlier with a predictable solution
