Victim Services Case Management
G Cloud 11 Pricing

E-CINS is the only solution of its kind in the world. It's not just a software system it's a collaboration platform that contains over 80 integrated, comprehensive systems for specific business areas. This isn't the only reason E-CINS is unique. What sets it apart from any other system is that it is available on a geographical basis for one all inclusive price. This means all the systems and functionality is readily available to you and your partners at no additional cost.

If you already have E-CINS in your borough, district, or county now is the time look at the cost savings you could be making by switching off silo systems. The more you use E-CINS the more money you save, the lower the risk your organisation is having to carry and the more people your can help with the same resources.

With the all inclusive E-CINS annual subscription you are not just purchasing a 'piece' of software. These annual fees help to cover everything we offer to all the organisations and teams that use E- CINS. In addition to the list on page 2, we build a relationship with all your partners big and small. They may well have their own reporting requirements and we work with them at no additional charge to ensure they can generate the exports they need. We also work with all organisations and teams to ensure they have their assessments and referral forms as electronic versions on E-CINS and again there is no additional charges for this.

A good examples of this is the fuel poverty programme in Brighton and the SARC in Nottinghamshire:

http://www.e-cins.co.uk/nottinghamshire-rape-serious-sexual-assault-partnership-adopt-e-cins-

dedicated-case-management-data-analysis-system/ http://www.e-cins.co.uk/e-cins-helps-end-fuel-poverty-brighton/

As Empowering-Communities are a not for profit Social Enterprise, E-CINS is offered non commercially. This means there are no individual user licences and no limits on what you can use the system for. There are no limits on the number of organisations you can have accessing the system and no limit on the numbers of premises or people you can manage on E-CINS as we want to help you maximise participation.

Pricing

Pricing based upon a minimum annual subscription of £7,400* per Local Authority area. Where the population exceeds 100,000 we charge £7,400* per 100,000 head of population or percentage there of.

In addition, we charge a one off implementation fee per scheme of £10,500 plus VAT.

We apply a 33% pilot discount for year one.

There are no user licences, no limits on the number of organisations or the number of business areas the system can be used for.

**per annum, for all areas of business plus vat per council district area and not per organisation.*

Annual subscription includes:

- the hosting of your data in an OFFICIAL environment in UK based, ISO27001, police audited data centres.
