Strategy, risk and performance service

Pricing guide G Cloud 10

1 Software pricing

"We chose Clearview because it's easy to use and great value for money. There is a clear benefit of having a central system for visually monitoring and managing strategic goals and objectives across the business. So, it will go a long way towards helping us optimise organisational performance."

1.1 Core modules

Strategy, Risk and Performance suite comprising modules:

- Strategy
- Project
- Risk
- Service Excellence
- Performance scorecard

User number bands	Monthly price per user
1 – 50	£25
51 – 100	£20
101 or more	£15

- Minimum commitment is 10 users for 12 months.
- Site licences start from £3000 per month (i.e. user numbers of 150 or more). Maximum site licence is £7,500 per month.
- Costs include hosting service (*), licence, support and maintenance.
- Costs exclude VAT which will apply at the prevailing rate.

(*) additional charges may apply for excessive network, RAM, CPU or data storage usage. Site licence deployments may require a bespoke hosting arrangement to satisfy client performance and resilience requirements and this may incur additional charges.

Examples:

1) 75 users would be 50 @ £25 + 25 @ £20 = £1750 per month
2) 5 users would be 10 @ £25 = £250 per month (i.e. minimum commitment is 10 users)
3) User numbers above 150 would be better served by a site licence

1.2 Optional extras

1.2.1 People management module

Personal performance (people management) module for performance reviews, competency assessments and earning & development tracking.

This is priced at £3 per employee per month. Although it is included in the site licence at no extra charge.

This module is also available as a standalone service. Please contact for further details.

1.2.2 Intelligence and reporting module:

This is priced at £250 per month for unlimited viewer users.

1.3 Discounts for education and charities

A 20% discount is available for charities and educational establishments in the UK.

1.4 Professional services

There is a one-off setup fee of £1000. Training and consultancy services are charged at £975 per day (excluding VAT and expenses).

Expenses are charged at cost for travel, accommodation and meals (including lunch). Mileage if travel by car is charged at the prevailing HMRC mileage rate.

A typical core product implementation would be 6 – 10 days depending upon client module requirements. Service day discount bundles are available for 5 or more days that are bought and paid for in advance.

The optional modules have the following service recommendations.

Personal performance (people management): typical implementation 5 days install, training and consultancy.

Intelligence reporting: typical implementation 3 days install, training and consultancy. Bespoke report writing days are charged at £575 per day.
