interCOMM Court Case Management (with Source) Prices 2018

In respect of the provision of *interCOMM*, as described in the ***interCOMM*** **Court Case Management (with Source)** service description, Visionhall will charge a one-off fee of £4,750,000.

Description

interCOMM is an specialist court case management platform with an advanced API. ***interCOMM*** features electronic filing with user defined forms and electronic payments. ***interCOMM*** can be configured for any court or tribunal. The latest version 5 has been redesigned to use the latest cloud hosting technologies which means new instances can be deployed in minutes.

interCOMM is available as a pay-as-you-go SaaS option listed separately on the Digital Marketplace. This is the open source alternative allowing unrestricted development and customisation with no supplier lockin. There is a single charge with no recurring costs. Optional Implementation and Support services are also listed separately on the Digital Marketplace.
