Aiven Elasticsearch Pricing

Plan	Cluster Size	CPUs per VM	Memory per VM	Total Storage	Price per hour	Estimated montly price*
Business-4	3 nodes	1 CPU	4 GB	96 GB	£0.377	£275
Business-8	3 nodes	2 CPU	8 GB	192 GB	£0.753	£550
Business-16	3 nodes	4 CPU	16 GB	384 GB	£1.507	£1100
Business-32	3 nodes	8 CPU	32 GB	768 GB	£3.014	£2200
Premium-4	5 nodes	1 CPU	4 GB	160 GB	£0.651	£475
Premium-8	5 nodes	2 CPU	8 GB	320 GB	£1.301	£950
Premium-16	5 nodes	4 CPU	16 GB	640 GB	£2.603	£1900
Premium-32	5 nodes	8 CPU	32 GB	1280 GB	£5.205	£3800

- Monthly estimate is based on 730 hours of usage
- Actual memory and storage amounts may vary slightly between different Cloud providers.
- Total storage size is the combined storage size available in the plan. Usable disk space depends on the replication factor being used.
- Prices are all inclusive: VM costs, network costs, backup costs and setup costs are included in the price.
- These prices are valid in Amazon Web Services, Microsoft Azure and Google Cloud Platform European and US regions.
