PRODUCT PRICING

The core Secure Zone Gateway Service is based on a monthly charge per iX Guard instance required by the customer. In addition, there is a service on-boarding charge that covers installation, configuration of the standard (templated) Guard policy and testing.

Optional service elements include:

- File transfer utilities based on a monthly charge
- Personal Quarantine application based on a monthly charge per 10 users enabled
- File sharing applications based on a monthly charge per 10 users enabled
- Training based on a charge per course per attendee

Pricing excludes costs associated with the provision of computer and storage infrastructure required to host the service. This will vary depending on the nature of the information exchange requirements that are part of a customer's specific solution.

Pricing for the Secure Zone Gateway Service depends on the Service chosen and is priced on:

- the number of cross domain service Guard instances provided
- the number of users where data exchange or personal quarantine applications are required
