1. Pricing

Nth Dimension Limited provides a resource based pricing for the AWS Cloud Implementation services that can be provided from onsite locations in UK and/or offshore locations in India.

Nth Dimension is a majority owned subsidiary of Tech Mahindra Limited. Nth Dimension will use its parent company Tech Mahindra as a sub-contractor to deliver the services. At this point Nth Dimension envisages some or most of the services to be provided by Tech Mahindra with any other third party resources or specialist resources locally resourced as appropriate.

The services can be called-off as:

- Professional Services engagement
- Time & Material project or
- Fixed Price Project

Nth Dimension can engage with the customer in a Professional Services model where the customer specifies the type and number of resources that it requires. Nth Dimension will provide the right skilled resources and invoice on a Time & Material basis for the number of days utilized.

In a Time and Material (T&M) model, the customer will define the scope and deliverables for the project and agree with Nth Dimension the timelines for the delivery of the project. Nth Dimension will identify the resources with the right skills to deliver the project and invoice for the number of person days utilized on a monthly basis or as agreed with the customer. Travel expenses, and networking & telecom fees are invoiced separately.

In the fixed price based pricing model, the customer will agree with Nth Dimension a fixed price to be paid at the beginning of the project based on estimate of the work to be carried out. The estimates will be prepared on basis of the information provided by the customer and agreed in good faith. The pricing will be arrived at on the basis of the efforts involved, the levels of the resources and the rates of the resources provided in the attached SFIA rate card. Invoicing will be done as per the agreement with the customer at the outset of the project. Any changes or variations in the scope or requirements will be managed through a change control process and may impact the overall pricing.

The resource prices can be found in the attached SFIA rate card.

Any third party software or Hardware will have to be provided by the customer for which there will be no charge by Nth Dimension or will be procured by Nth Dimension as part of the services and charged additionally to the customer.
