£89
per license / year

Pricelist valid from 1 October 2016. The prices do not include tax.

Number of licenses = Number of simultaneous sessions

The number of purchased licenses defines the number of simultaneous sessions.

Example

Your company purchases 3 licenses.

All your employees may install and use ISL Online software...

...but only 3 of them can host a remote desktop session or an online meeting at the SAME time.*

Multi session available - start unlimited simultaneous sessions from the SAME computer by using only one license.

Live chat is not limited by the number of licenses. When hosting an online meeting each license allows you to invite 10 participants.

■ All in One
One ISL Online license includes remote support, remote access, live chat and web conferencing as well as all products' mobile apps.

■ Unlimited Installations
You may run ISL Online software on an unlimited number of computers or mobile devices.

■ Unlimited Workstations
You may connect to an unlimited number of computers.

■ Unlimited Operators
You may create an unlimited number of operators that can host a session.

■ Unlimited Clients
You may connect to an unlimited number of clients.

Corporate Server License
