SWIFTLOCUM

THE PROBLEM

WITHIN NHS **TRUSTS**

A shift becomes vacant at short notice. What happens next?

Busy staffing teams must call, email and SMS individual doctors. This is inefficient and ineffective

Trusts turn to expensive agencies – if the shift can't be filled, patient safety is compromised

AMONGST **DOCTORS**

Methods used to connect with doctors do not allow them to book and manage shifts on the move

Repetitive pre-employment checks are time-consuming and inconvenient

THE RESULT?

THE NHS SPENDS

£3 BILLION

ON AGENCY STAFF ANNUALLY

THE SOLUTION

SwiftLocum is a cloud-based platform and app that allows NHS Trusts to connect with and recruit doctors directly and seamlessly

BENEFITS FOR **TRUSTS**

Bypass costly agencies

Collaborate staff banks with local Trusts

Streamline registration of new doctors

Manage vacancies, applications and electronic timesheets via the portal

Free setup, training and 24/7 support

BENEFITS FOR **DOCTORS**

Apply for and manage shifts via app

Upload pre-employment documents electronically

Paperless electronic timesheets

Track compliance to the new junior doctor contract

Free to download and use for doctors
