1. Pricing

1.1 Standard Feature Pricing

The following section defines the pricing for the standard service elements that comprise the Atos Digital Workplace. All pricing excludes VAT.

Pricing is based on per user per month, with a minimum of 12 months and 1,000 users.

1.2 Service Plan Pricing

The following table demonstrates how the costs of the service vary according to the volumes of users, the model assumes the customer will use their own existing Licensing for the service, Atos can provide licenses but this will impact the price of the service.

Users	Average user cost
Standard Plan (EU based support)	
10-20 user POC	£710 per user per month
First 1,000 users	£26.00 per user per month
1,001 – 10,000 users	£15.50 per user per month
Enhanced Plan (Support by UK SC cleared staff)	
10-20 user POC	Not offered in Release 1.0
First 1,000 users	£31.00 per user per month
1,001 – 10,000 users	£18.50 per user per month

Note: The prices in this table are per user per month

1.3 Optional Service Features

We offer the following optional service features:

Service Description	Price
Application compatibility report	£653 per day of report execution
Accessibility testing	£773 per day of accessibility testing
Accessibility document creation	£653 per day of accessibility document creation
Activity and inventory reporting	£653 per day of report execution

About Atos

Atos is a global leader in digital transformation with approximately 100,000 employees in 72 countries including over 10,000 in the UK. Atos specialises in Big Data, Cybersecurity, High Performance Computing and Digital Workplace. The Group provides Cloud services including Application Transformation to the cloud, Infrastructure and Data Management systems, Business and Platform solutions, as well as transactional services through Worldline, the European leader in the payment industry.

Atos has a number of sites and facilities that are HMG Assured to process information at OFFICIAL. These sites meet or exceed the standards laid down in the Security Policy Framework (SPF). The Atos Data Centres are ISO27001 certified and PCI DSS certified. The Atos IaaS service has approval for connection to the PSN network. In all cases these facilities are hosted on-shore in the UK, managed by SC cleared staff and include secure office areas and secure data processing centres. The IRIS Cloud Platform is compliant to the NCSC Cloud Security Principals.

In the financial services sector we provide services that meet FSA requirements. The PCI Security Standards Council and VISA Europe have classified Atos UK as a Level 1 Payment Services Provider, based on its aggregated level of Payment Card transactions. We have a company-wide strategic PCI DSS Compliance programme which defines methods and timescales for the achievement of compliance for all of Atos hosted customer accounts and support services, whose requirements include the processing of Payment Card information.

Within the defence sector, Atos is approved to hold UK government "OFFICIAL" protectively marked information and has the capability and accreditation to host data and associated systems marked as "SECRET" or "TOP SECRET". Atos uses customer networks for transmission where appropriate and is fully compliant with procedures relating to the manual handling of protectively marked information.
