	£26 per month for 1GB RAM on 4 vCPU	
	£25 for 100GB disk per month	

Notes

1. A "user" is defined as a named user. Minimum number of named users is 50.
2. Prices quoted above are per organisation.
3. Price includes infrastructure, service management and help desk.
4. Based upon up to 1TB storage.
5. The Charges for this Service can be on the basis that Guarantee or no Guarantee is required.
6. Pay-as-you-go billing is available, subject to a minimum initial term of 6 months - per hour usage charges for virtual servers, software images, persistent storage, IP addresses and per gigabyte charge for Internet data transfer.

Resource based pricing

A range of related professional and technical resources can be procured on a flexible basis. The relevant prices for all resources are provided in a separate SFIA document, entitled Meritec Public Sector Cloud Hosting Rate Card - alongside other documentation in our catalogue entry.

Discounts

Volume discounts

- There are no specific discounts for volumes.

Combination discounts

- A discount of 10% is available on an order for a second and subsequent service(s).

Education pricing

Discounts of 10% are available on our Digital Marketplace services for an educational service (i.e. a service supplied to a recognised educational organisation – for both educational and non-educational users).

Sector pricing

Apart from Education, prices are generic across sectors.
