Drupal Managed Cloud Hosting Instance

Size	Memory (GB)	Indicative Disk (GB)	Indicative Cost Per Month
Micro	2	20	£200 - £400
Small	4	50	£250 - £500
Medium	8	250	£400 - £800
Large	16	500	£600 - £1200

We use a variety of infrastructure providers including Amazon, Acquia, Bytemark and others. All are UK based and ISO 27001 accredited. Exact costs will vary depending on additional infrastructure required and provider chosen. We will work out the most suitable and cost-effective set up as part of the on-boarding service.

For larger and more custom configurations including HA clusters we can only work out pricing based on exact configuration including firewalls, load balancers etc.
