BUREAU VAN DIJK

A Moody's Analytics Company

Orbis

Pricing for public sector entities

Orbis is the world's most powerful comparable data resource on private companies.

Orbis has information on over 350 million companies across the globe. It's the resource for company data. And we make it simple to compare companies internationally. Use Orbis to find, analyse and compare companies for better decision making and increased efficiency. You can seamlessly integrate Orbis into your workflow. European and UK versions available.

Pricing

The cost of Orbis is dependent on:

- Number of seats (users) required
- Use of data
- Contract length
- Modules selected

Additional modules available

- Financial strength data
- News
- Market research
- Images
- Add-ins: Excel and PowerPoint
- World Compliance
- Regional versions of Orbis are available

Training and support

On-site or remote training is included in the cost of Orbis

Other information

- Full access free trials are available (excluding export function)
- Minimum contract period is 12 months. Multi-year options available

Data management using information from Orbis

You can quickly and easily match large lists of companies from your own internal systems, with information in Orbis, to identify and verify the correct legal entity and get information on it. This service can be delivered by FTP. There is an additional cost for this service.

Orbis scenario examples

Due to the complex pricing structure of the product, scenario pricing has been used to provide clarity for the customers and that the price they would pay would be based on the prices used for the scenarios.

Scenario 1

A single named user within a department who only needs basic access and will require no more than 5 reports a month. (60 international reports a year).

Total contract cost per year: £5,000

Scenario 2

1 named user who needs 100 reports a month, basic access with additional modules for News and Market Research

Total contract cost per year: £50,000

Scenario 3

5 named users who need a total of 1,000 reports a month. They also require the additional modules of Financial Strength to monitor financial distress in detail and World Compliance data to monitor reputational risk with associated shareholders and directors.

Total contract cost per year: £200,000

Scenario 4

50 named users who need a total of 3,000 reports a month. They require World Compliance and Financial Strength.

Total contract cost per year: £500,000

Scenario 5

Enterprise access for a large organisation with over 1,000 named users. Access to all additional modules. Unlimited reports.

Total contract cost per year: £1,200,000
