

# Load testing

Load testing is priced:

- Per user journey simulated for test setup and design
- Per run for execution and report generation

In addition the cost of the resources used for a run will be charged, if they exceed £100 per run.

Typically they do not, and an estimate will be provided beforehand.

# Pricing

Simulation design	Cost per user journey (ex VAT)
HTTP only or API testing	£1,000
In-browser, including JavaScript frameworks (e.g. React)	£2,000

## Other costs

Per test run cost	£1,000
Additional consultancy and advice	£120/hour
