1 Azure Pricing

Microsoft's Azure offers you a pay-as-you-go approach for pricing for over 150 of its cloud services. Pricing for Azure services can vary depending on the region you are deploying in to, and Microsoft reviews its overall pricing on a regular basis. SCC recommends that you view up to date pricing using the following link:

<https://azure.microsoft.com/en-gb/pricing/>

Micros also offers a free tier for selected services across a 12 month period, and information on this tier can be found at <https://azure.microsoft.com/en-gb/free/free-account-faq/>

Overall costs for Azure are typically made up of multiple services deployed across a single, or multiple regions. SCC will be happy to help provide indicative pricing as part of its architecture services, however you can estimate these costs using the Azure pricing calculator found at <https://azure.microsoft.com/en-gb/pricing/calculator/>

Please call your SCC sales or service delivery representative for more information or to answer any questions.
