G Cloud 11 Pricing Document

Nowcomm are the first and only UK IT Services Partner to be established exclusively by former Cisco employees. We are a forward thinking, dynamic, agile and engineering lead organisation. Our specialists focus on the design, development, support and management of customer cloud, premise, and hybrid solutions that make a real difference to the public sector organisations.

Our commitment to excellence and continual improvement is demonstrated by our many industry certifications including ISO 9001, ISO 14001, Cisco Gold Partner, Cisco Master Cloud and Managed Services Partner and Cisco Master Collaboration Partner along with our adoption across our business of industry best practice such as ITIL.

These standards and certifications underpin the way we operate on a day to day basis. Rest assured that by working with Nowcomm your wired and wireless networks, cyber security protection and collaboration and communication infrastructure is in the best possible hands. Our staff are all based in the UK, as is our Network Operation Centre including our Security Incident and Event Management and Security Operations practice, all of which are available 24/7/365.
