PReP

PReP – Appraisal and Revalidation Software for Doctors
PRICING DOCUMENT

PRICING STRUCTURE

Pricing for the PReP appraisal and revalidation software is based on an annual user license fee.

Typically, the price of PReP ranges from £29 per user per annum to £79 per user per annum depending on the number of users and length of contract. Standard contract length is three or five years. There are no hidden or additional costs!

PRICING INCLUSIONS

Contracts include the following as standard:

- Software configuration and deployment to live server
- One day administrator/train the trainer training for up to four personnel
- Continued compliance with GMC Revalidation guidelines
- Application of organisation branding to user interface
- Upgrade management
- Annual hosting charges
- Annual maintenance charges
- Annual support charges (including bug fixes)
- Data backup
- System security (including SSL data encryption)
- Initial data import of user details

The fees do not include:

- Code level modifications to the software
- Integration with existing internal systems such as HR software/applications

ORDERING AND INVOICING PROCESS

Premier IT complete a heads of engagement process whereby the contractual terms and pricing are agreed and the project is then scheduled for implementation.

Subject to a five, three or one year fixed contract, payment can be made annually in advance of the ongoing provision, or upfront for the entire contract duration.

Additional charges may be added for additional users.
