Personal Data

EasySharePoint process personal data in reliance on three of the lawful bases stipulated by Article 6 of the General Data Protection Regulation. Under Article 6 (b), data controllers are permitted to process personal data where such processing is necessary for the performance of contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract. When relying on Article 6 (b) EasySharePoint will only process personal data where it is necessary for the performance of a contract or in order to take steps at the data subject's request prior to the entering into of a contract. EasySharePoint will take reasonable steps to inform data subjects of the processing necessary to take steps prior to entering into a contract.

Where processing is required but not necessary to the performance of a contract, EasySharePoint reserves the right to process personal data in accordance with Article 6 (a). This stipulates that processing shall be lawful where the data subject has given consent to the processing of his or her personal data for one or more specific purposes. If such processing is required we will seek consent from the relevant data subjects in accordance with our GDPR consent policy.

Where neither Article 6 (a) or (b) applies, EasySharePoint reserve the right to process personal data pursuant to Article 6 (1) (f). This stipulates that processing will be lawful where necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection, in particular where the data subject is a child. EasySharePoint will rely on Article (1) (f) in circumstances including, but not limited to, where the processing is not required by law but is of a clear benefit to the data subject; where there is a limited privacy impact on the data subject or where the data subject should reasonably expect their data to be used in that way. EasySharePoint will not deploy Article 6 (1) (f) as a default lawful basis for processing.

Terms of Business

EasySharePoint is aware of its obligation under Article 31 of the GDPR, which stipulates in the case of a personal data breach data controllers shall without undue delay and, where feasible, not later than 72 hours after having become aware of it, notify the personal data breach to the supervisory authority, unless the personal data breach is unlikely to result in a risk for the rights and freedoms of individuals. In the event of a personal data breach EasySharePoint will inform the data subject of whether EasySharePoint considers a report to the relevant authority necessary. If it is not intended that a report will be made EasySharePoint will inform the data subject as to why EasySharePoint consider the breach unlikely to result in a risk for the rights and freedoms of individuals. In the event that a report to the relevant information authority is not made within 72 hours EasySharePoint will provide the data subject with a reasonable justification for the delay. EasySharePoint will maintain records of any personal data breaches and decisions taken pursuant to obligations under Article 31.

The EasySharePoint Software Assurance model

Unless otherwise agreed separately and in writing EasySharePoint supports the Product Object Code only and nothing else. No other services or support are provided by EasySharePoint to the Client.

It is the Client's responsibility to make its own arrangements for support of the Permitted Code, configuration and custom code as required by the Client.

EasySharePoint will provide fixes, ongoing device compatibility updates, as well as enhancements, new releases and new features to the Object Code from time to time during the period Product remains current.

24. EasySharePoint Software Assurance Response Process

An initial response to the Client (in the form of an acknowledgment) for all reported issues will be the responsibility of EasySharePoint. If an issue is logged by the Client on the EasySharePoint system, EasySharePoint will take reasonable steps to acknowledge the reported issue within 24 hours of the Client registering it in accordance with EasySharePoint's procedures.

Following an initial acknowledgement, EasySharePoint will carry out an investigation to confirm if the issue is a core defect (being a material defect that EasySharePoint can reproduce and which EasySharePoint determines in its sole opinion to be a bug in the Object Code), the severity of the bug and the target release date of a fix (if considered by EasySharePoint to be a core defect).

EasySharePoint will use its reasonable endeavours to investigate the issue and report to the Client (if there is no SLA in place and the issue was logged by the Client within 3 working days provided that time is not of the essence and the time taken to investigate and produce a fix will depend on the complexity of the issue)

In the case of medium and low severity bugs EasySharePoint will use its reasonable endeavours to resolve the issue in the next major release save that if the next major release is due in less than 4 weeks from the date the issue is reported to it EasySharePoint will use its reasonable endeavours to resolve the issue in the next major release after that.

EasySharePoint will use its reasonable endeavours to resolve high severity bugs with a minor release (patch) of the current release.

The severity of all bugs will be determined and categorised by EasySharePoint.

EasySharePoint Additional Terms

On service of notice terminating this Agreement, EasySharePoint will be under no further obligation to fix any issues reported by the Client or any Partner on behalf of the Client and the Client will lose access to the EasySharePoint Client Extranet and will no longer receive any updates.
