

Moortec's Cloud Software pricing is based upon both the number and complexity of the instance of the software package (e.g. Drupal) being hosted. Prices start from £100.00 per instance per month (ex. VAT) but exclude the underlying cloud hosting charges.

Additionally, and if more appropriate, Moortec offers additional pricing options:

- Resourced based pricing (Time and Materials, T&M),
- T&M with volume discounts and
- fixed-price project work.

Resource Based Pricing

Moortec provides resources on a T&M basis according to the rates described in the Moortec SFIA Rate Card. These rates are based on a consultant's working day (being 8 hours exclusive of travel and lunch).

Volume Discounts

Moortec provide discounted pricing based on the number of days per engagement within any single calendar year. The following table describes the discounts that apply:

Banding	Discount Applied	Illustration
1 to 50 days	Not Applicable	The first 50 days are charged as per the rates described in the Moortec SFIA Rate Card.
51 to 100 days	2.0% discount	The first 50 days are charged as per the rates described in the Moortec SFIA Rate Card. The subsequent 50 days are charged at a 2.0% discount from the rates described in the Moortec SFIA Rate Card.
Over 100 days	4.0% discount	The first 50 days are charged as per the rates described in the Moortec SFIA Rate Card, the next 50 days are charged at a 2.0% discount from those rates. The next 100 days (the 101st to 200 th day) are charged at a 4.0% discount from the rates described in the Moortec SFIA Rate Card.

Fixed Price

Moortec can offer fixed price delivery of projects and services, if required.

Collaboration Agreement Pricing

Moortec's pricing is unaffected by the existence of a collaboration agreement.
