Pricing

1 Access Financials

Access Financials is a cloud based web enabled financials and operation solution. Functions include sales, purchase, nominal ledgers, Autobank Reconciliation, Purchasing, Fixed Asset, multi-currency, cashbook and VAT, project accounting, time recording, billing and management reporting. Options for OCR and Document Management are also available.

Designed as an easy to use and intuitive accounting solution, data is instantly available ranging from management reports, Profit & Loss, Balance Sheet, Creditor / Debtor reporting to project utilisation and Work in Progress.

With one data source, the same information is available on the go to both finance and non finance users. Data entered once follow standard workflows and ensure complete data integrity.

Notes on Pricing / additional services

- Annual fee invoiced annually in advance   Excludes VAT

Example

Organisation has a requirement for 3 core accounts users, 20 Time / Expense users and 20 Purchasing. Price per annum is calculated as follows

Core Accounts – (1 x £6,000 + 2 x £1,500)   = £9,000

Timesheet Users – (£200 x 20 named users)   = £4,000

Purchasing – (£250 x 20 named users)   = £5,000

Total   = £18,000

Implementation options are:

Access Financials Implementation options	Total
