verso™

Price Guide (G-Cloud)

Author: Alex McCreath
Date: 14th July 2020
Verso: Version 5.0

1. Introduction

1.1 Executive Summary

This document has been produced to provide a high-level commercial overview of verso™ licensing automation & case management software.

Verso™ is designed for automation of public sector licensing, workflow and enforcement process for new licenses, variations, revocations and renewals of existing licenses. Featuring full case management and HHSRS & standard inspection processes. Verso™ can configured as a standalone cloud-based solution, or with out-of-the-box integration with CRM software such as Idox™ Uniform, and other legacy platforms
