Ubertas Consulting Limited
Pricing Document

Amazon Web Services (AWS) Usage Pricing

AWS only charge for what you use. There is no minimum fee. We can provide accurate estimates for monthly bill using the AWS Simple Monthly Calculator. The prices listed are based on the region in which your instance is running.

We can provide detailed comparison between On-Demand instances, Reserved Instances and Spot instances.

Usage costs are set by AWS themselves, and Ubertas have no control over how the costing may change or fluctuate over time.

AWS offers a simple, pay-as-you-go pricing approach for over 50 cloud services. With AWS you pay only for the services you need, for as long as you use them and with no long-term contracts.

AWS pricing is based on each individual service so you only pay for what you use, and you don't have to worry about dependencies, complex licensing or termination fees.

The AWS Pricing Principles can be found by following this link:
https://aws.amazon.com/pricing/?nc2=h_ql_ny_livestream_blu

When purchasing AWS Services via Ubertas, an authorised AWS Channel Reseller, we add no margin or charges to prices as listed at the time by AWS.

Technical and Consulting Services Pricing

SFIA Rate Card

A detailed summary of all our technical and consulting services rates are set out in our SFIA Rate Card. These are aligned to our standard time and materials rates, and can also be purchased by the hour.

2.2   Fixed Price

Ubertas will also provide all our services on a fixed price basis for an agreed and set scope of work.
