

# Skills Framework for the Information Age

July 2020

## About Edge Health skills for the information age

*Edge Health works with leading health and care organisations and professionals to create better analytics and insights from their data.*

The Edge Health uses a range of techniques to develop and support our library of data products. These include:

- economics, demand, and capacity modelling
- machine learning and data science
- geographic analysis and mapping
- infographics and data visualisation
- data reporting and dashboard development
- bespoke data products and data pipeline development
- survey design, implementation, and analysis
- strategy, support, and coaching

More information on our work in general and team can be found on our website:

[www.edgehealth.co.uk](http://www.edgehealth.co.uk).

The table below sets out our Skills Framework for the Information Age rates under G-Cloud 12.
