Pricing Document

GoReport Licencing

Our licencing structure is priced to allow for varying levels of technology adoption throughout an organisation. We offer a base company licence that offers users access to a web portal to create, edit, publish and download reports. This is combined with user device licences for our iOS app so the technology can be used onsite from a handheld device.

For you to get the most out of our software we also provide several professional services that equip you with all the training, skills and services you need to make a success of your technology adoption.

Company Licencing Bands

Small Company Licence (1-3 users)
£1,496

Medium Company Licence (4-10)
£2,495

Corporate Company Licence (11+)
£3,495

Professional Services Fee
