Costain Cloud Services - Pricing

Cloud Software Services

Our G-Cloud service prices are based on a range of factors and will vary on a case by case basis, a scope for which will need to be agreed upon engagement.

The prices for Lot 2 (Cloud Software, or 'Software as a Service') vary according to installation requirements, initial configuration, number of datasets/feeds and we will discuss specific requirements with clients. All prices are exclusive of VAT and subject to accurate scoping with individual clients on a case by case basis.

Resource costs for additional on-site support and implementation (where needed) is based upon our SFIA rate card.

Service	Min	Max	Notes
Irides Connect	6000	50000	Price varies according to no. of video feeds and data usage
Irides Web	3500	50000	Price varies according to no. of video feeds and data usage
GIS Mapping & Analytics	5450	21000	Price varies according to requirement (data quality and volume, no. of apps, etc.)
GIS Proximity & Routing	4700	25000	Price varies according to no. of 'runs'
GIS Biodiversity Management	5450	51000	Price varies dependent on no. of datasets
GIS Natural Capital (MapCap)	5450	51000	Price varies dependent on no. of datasets
AI Engineering & Consultancy	15000	250000	Price varies on model, data complexity and amount of engineering & consultancy
AI Democratised – One Click AI	15000	250000	Price varies according to data and model complexity
Carbon Insights – Standard	15000	250000	Base price for use of tool only
Carbon Insights – Professional	65000	250000	Inclusive of initial consultancy & support

Cloud Support Services

Our pricing is based on using proven estimating models to scope our work and the size and experience of the team needed to deliver to your timescales and using the SFIA rate card to calculate price. Typically, we would expect you to

All rights reserved Costain 2020 Costain Group PLC, Registration No. 1393773.

procure services as fixed price or Time and Materials, where appropriate, based on how well understood the scope of the work is.

Our prices for Lot 3 are based on a unit of a Resource-Day upon our national SFIA rate card. All costs are exclusive of VAT. It should be noted, however, that this is a maximum rate card, and that where we might be undertaking work outside of London and in proximity to Costain offices it may be possible to deliver services at a substantially reduced rate. This will be agreed with individual clients upon engagement.

About Costain

Improving people's lives with smart infrastructure solutions

Costain's purpose is to improve people's lives by delivering integrated, leading edge smart infrastructure solutions to meet national needs across the UK's energy, water, transportation and defence markets. Founded in 1865, we have gained a reputation for unusual levels of entrepreneurialism and innovation in solving engineering problems around the globe.

We combine future-shaping strategic consultancy with digital technology solutions, transforming business performance and infrastructure intelligence through the development and integration of digital technology solutions built on our deep client insight. We work with our clients in their business and investment planning to develop new solutions to meet changing needs, leveraging our deep client insight, leading edge expertise and broad range of capabilities.
