Table of Contents

1   Pricing Overview

Condatis IAM is a flexible offering, so an authority can commission the work they need. Pricing will depend on the workstreams commissioned (Assess, Plan, Build, Deploy, BAU Support).

1.1   Assess

Condatis offers the following assessment activities to help an authority assess their IAM requirements. Time can be increased or decreased depending on in-house knowledge and / or work already done.

- 1x ½ day on-site or remote workshop: IAM fundamentals
- 1x ½ day on-site or remote workshop: IAM requirements in context
- 1x ½ day on-site or remote workshop: whiteboard solution design
- Optional: off-site proof of concept delivery

1.2   Plan

Planning activity focusses on producing documentation assets that help an authority decide the right IAM implementation route, and includes:

- IAM strategy document
- High-level design
- Indicative timeline and project plan
- Costed work-breakdown structure

1.3   Build

Build delivers working IAM software. Typically this is achieved over an agreed number of sprint cycles.

1.4   Deploy

Deploy focuses on getting software into the hands of an authority's users. This may include time-boxed support to deploy to higher environments (e.g., Pre-Prod, UAT, Production) and engineering effort to integrate line of business applications with the IAM solution.

1.5   BAU Support

BAU activities move your IAM solution to steady-state running. This includes aspects such as baselining support requirements and agreeing the right SLAs.

1.6   Rate Card

Work is priced on a time and materials (T&M) basis:

	Engineering (Dev, Test, BA, UX)	Governance	Architecture
Tech1 – Associate	£950	£900	-
Tech2 – Consultant	£1,150	£1,100	-
Tech3 – Snr Consultant	£1,250	£1,200	£1,500
Tech4 - Principal	£1,350	£1,300	£1,650

- Working hours: 0900-1700, Monday-Friday
- Working day: eight (8) hours, exclusive of lunch and travel time
- Working week: Monday-Friday, exclusive of national holidays
- Professional indemnity insurance: included in day rate
- Travel and expenses: excluded from day rate
