3 About Celerity

Celerity is a leading provider of cloud technologies, managed service and consulting. We specialise in helping organisations utilise the unique aspects of emerging technologies to solve business challenges in new and dynamic ways. We operate under managed service or strategic partnership contracts with our major clients.

Celerity has established partnerships with the very best hardware and software vendors in our areas of specialisation and we are committed to assisting our customers in the evaluation of all potential solutions, including the optimisation of current IT systems. Our main technical partners include:

redhat. BUSINESS PARTNER	veeam pro partner	Microsoft GOLD CERTIFIED Partner
IBM Gold Business Partner	ORACLE	EMC² VELOCITY² PREMIER SOLUTION PARTNER
vmware PARTNER ENTERPRISE SOLUTION PROVIDER	CISCO PARTNER Premier Certified	ca technologies ADVANCED Partner

This approach combined with our proven engagement methodology enables us to develop and deliver cost-effective solutions that are an asset to your business. We offer a unique consulting talent and technical support expertise to companies wanting to realise the benefits of their IT investment.

History

Celerity was formed in 2002 and has successfully sustained business growth since inception. We operate four locations in the UK covering England, Scotland, Wales and Northern Ireland, extending to EMEA, USA and AP regions to meet the requirements of strategic relationships developed with many global corporates. The company began as a reseller for IBM enterprise systems hardware and expanded rapidly becoming an IBM Premier Business Partner in 2003. Celerity has received many awards and recognition over the years including reaching 40th place in the Financial Times Fast Track 100 companies.

In addition to expanding our reseller capability to include all server platforms up to IBM Z

mainframe, we have broadened our capabilities and strategic partnership with many global vendors to ensure we integrate best of breed, leading edge technologies that transform IT services and align these to business goals.

Today Celerity maintains its value-added reseller heritage and provides cloud and managed services based on our skills, knowledge and experience gained from deploying enterprise solutions globally.
