## SECURE FAX

More information: [www.telecoms.cloud/fax](http://www.telecoms.cloud/fax)

The cost of the fax service is made up of two elements; firstly, a monthly package fee which includes hosting of a fax number, an allowance of inbound pages and access to the 256-bit encrypted secure portal and fax storage.

Where possible, fax numbers can be ported into Telecoms Cloud from other networks. There is a one-off porting fee of £30+VAT per request, per number.

Secondly, outbound faxes sent are charged on a per-page basis, with the cost depending on the destination number and starting at 26p+VAT, with fees deducted from a separate pool of pre-paid credit.

Volume Discounts are available when purchasing pre-paid credit for your account. The invoiced cost for a set amount of credit is discounted, and then usage is charged in the normal way.

Volume Discounts are as follows:

- Purchase £3,900 credit for a 5% discount
- Purchase £13,000 credit for a 10% discount
- Purchase £32,500 credit or more for a 15% discount
