London Region Pricing

IBM Cloud Object Storage

All Pricing is in USD($)

Pricing Table: Cross Region Resiliency Option (London/Frankfurt/Amsterdam)

	IBM Cloud Object Storage Public Service Model		
	Standard	Vault[1]	Cold Vault[2]
Storage ($/GB/Month) 0-499.99TB	$0.0318	$0.0212	$0.0117
Storage ($/GB/Month) 500TB+	$0.0276	$0.0191	$0.0117
Data Retrieval ($/GB/Month)*	No Charge	$0.0100	$0.0500
Class A Operations: PUT, COPY, POST, and LIST Requests ($ per 1,000 Requests)	$0.0060	$0.0125	$0.0250
Class B Operations: GET and all other Requests ($ per 10,000 Requests)	$0.0050	$0.0125	$0.0250
Delete Requests	No Charge	No Charge	No Charge

Pricing Table: Regional Resiliency Option			
	IBM Cloud Object Storage Public Service Model		
	Standard	Vault[1]	Cold Vault[2]
Storage ($/GB/Month) 0-499.99TB	$0.0235	$0.0128	$0.0064
Storage ($/GB/Month) 500TB+	$0.0214	$0.0107	$0.0064
Data Retrieval ($/GB/Month)*	No Charge	$0.010	$0.050
Class A Operations: PUT, COPY, POST, and LIST Requests ($ per 1,000 Requests)	$0.0060	$0.0125	$0.0250
Class B Operations: GET and all other Requests ($ per 10,000 Requests)	$0.0050	$0.0125	$0.0250
Delete Requests	No Charge	No Charge	No Charge

Note 1: Vault: 30-day minimum duration, 128KB minimum object size applies as part of capacity usage charge.
Note 2: Cold Vault: 90-day minimum duration, 256KB minimum object size applies as part of capacity usage charge.

Data Transfer Out - Public Out Bound Bandwidth ($ Per GB) for all Public Service Models	
0-50TBs	$0.09

Data Transfer Out - Public Out Bound Bandwidth ($ Per GB) for all Public Service Models	
51-150TB	$0.07
151-500TB	$0.05
Greater than 500TBs	Please Contact Us

Explanation of Pricing components:

Charge Metric	Price	Description
Storage Capacity	$/GB /month	$/GB/Month charge for storage used in monthly billing cycle.
Data Retrieval *	$/GB Retrieved/month	When a request to retrieve data from Cloud Object Storage is issued a per GB retrieval is incurred.
Operations:		
Class A: PUT, COPY, POST, and LIST Requests	$/ 1,000 Requests	PUT, COPY, and POST requests, as well as LIST requests used to list buckets and objects
Class B: GET and all other Requests	$/ 10,000 Requests	GET (excluding listing), HEAD, and OPTIONS requests
Delete Request	No Charge	
Data Transfer Out - Public Out Bound Bandwidth	$/GB/month	Public Out Bound Bandwidth for transfer out from Cloud Object Storage to internet

Charge Metric	Price	Description
Minimum Duration		Objects stored and removed are billed at full terms of service – 30 Days for Vault and 90 Days for Cold Vault.
Min Object Size		Objects are billed at a minimum object size for service – 128K for Vault and 256K for Cold Vault.
Resiliency Option	Regional or Cross Region	Objects can be deployed in buckets with Regional or Cross Region resiliency. See description below.

Resiliency Options

Regional Resiliency	Cross Region Resiliency
Provides data storage within a geographic region in multiple IBM data center facilities per region. Data is accessible via single Regional end point for business continuity and availability. Offers simplified pricing, with no separate charge for storing data in multiple regional data centers.	Provides data storage across three geographic regions, 1000 + kilometers apart, in one IBM data center facility per region. Data is accessible via three geographically dispersed Regional end points for business continuity and availability. Offers simplified pricing, with no separate charge for storing data in three geographically dispersed regional data centers.
