About Evoco.co.uk

The Directors have over 75 years of combined Business Leadership and Change experience from strategy to delivery. We will be on-site working with your team to deliver the results you require.

We give you peer level help to meet your goals - a person who has a safe pair of hands - who you can trust to drive your key initiatives. We influence senior stakeholders before, during and after project implementation by managing expectations through clear communication. This reduces the likelihood of surprise within the business.

We create a highly structured work routine through minutes, agendas and facilitated team and stakeholder meetings, whilst empowering key players. Individual, team and group objectives ensure alignment and give clarity to what decisions can be made and by whom.

If your organisation is lacking in the key skills needed to deliver a Business Programme, we will supplement your team until we have facilitated a skills transfer. We have five industry-focused Operating Groups (OGs) including Health & Public Service, Communications Media & Technology, Financial Services, Products and Resources and these are supported by three Growth Platforms: Management Consulting, Technology and Outsourcing.
